

# MRO Data Services

## World Class data cleansing service for your CMMS

### Improve the Quality of Your Maintenance Repair and Operations (MRO) Data

For many organizations, poor quality maintenance data is often the root cause of underperforming equipment reliability and high maintenance costs.

Solve this problem once and for all with the maintenance and engineering professionals at TRM.

#### Our approach is simple:

- **Augment Staff** – Maintenance professionals familiar with your equipment and process
- **Walk Your Plants** – Capture asset data including images, tagging and name plate data
- **Catalog MRO Spares** – Research assets and align Bills of Materials
- **Improve Asset Hierarchies** – Research and refine assets and locations
- **Reload CMMS** – Get assistance to reload the improved information
- **Data Governance** – Build a program to help enforce long term standards and accuracy

Don't suffer from poor quality maintenance data

Accurate data leads to better maintenance and reliability

Rapidly update your CMMS data

Once your data is fixed, it stays fixed

Keep the right parts in stock when you need them
