

Maximo AAM

Accelerate your Journey to World Class Maintenance

TRM's best practice based, turnkey asset management solution

Maximo AAM is an advanced, cloud based asset management solution that offers best in class functionality and a lightning fast deployment approach for a fraction of the price of other enterprise solutions.

Leverage business insights that will help you make better decisions, maximize revenue generation, save money and achieve cost containment.

IMPROVE YOUR BUSINESS

Preconfigured screens, work processes, and foundation data eliminate the need for expensive implementation projects while delivering capability for Asset, Maintenance, Inventory, Purchasing, and Reliability Management.

Reduce maintenance cost by 60%

Reduce Inventory cost by 50%

Reduce asset downtime by 60%

Improve asset life by 20%

RELIABILITY, AI MAINTENANCE SOFTWARE

Comprehensive asset maintenance and work management functionality based on the world's leading EAM solution - IBM Maximo Application Suite. Preconfigured to go live in weeks, not months.

INNOVATIVE ENHANCEMENTS

Asset management has never been easier. Enjoy our self-guided Maximo AAM Implementation Portal, integrated ECCM library Inspections App, and OMNI Maximo Assistant, for AI Powered online support.

AFFORDABLE

Attractive license options and quick start implementation to reduce costs.

PROVEN BEST PRACTICES

Configurations based on TRM's 30+ years of honed reliability maintenance best practices, Maximo implementation experience and thousands of successful projects.

A PROVEN SOLUTION

More than 80% of EAM implementations fail to meet their promised return on investment because they failed to align the system with an organization's goals for improvement. TRM's Maximo AAM solution includes EAM best practices that are proven to work and it comes preloaded with foundation data to ensure the success of your implementation.

MAXIMO AAM FEATURES

- IBM Maximo Enterprise Asset Management Software, the world's leading software for Asset and Maintenance management
- Best practice configurations based on 30+ years of CMMS implementation experience
